

Zilon Mink Oil - Leather Protector & Conditioner

Product Information

Summary

Recommended by professional car detailers and manufacturers, Zilon's Interior Leather Protection contains mink oil which conditions your automobiles seats to protect against spills and stains while maintaining that "like new" soft and supple feel and appearance.

Application instructions

1. Area to be treated should be clean, free of dirt and grease
2. Using a clean dry cloth, apply liberally. Using an additional cloth, wipe off excess
3. Buff the leather lightly in a circular motion to fully condition and polish

Caution

KEEP OUT OF REACH OF CHILDREN. Contains Steric Acid (CA5# 57-11-4), Poly Dimethyl-siloxane fluid (CA5 #63148-62-9), Aloe Vera (CA5 # 8001-97-6) and Mink Oil. First Aid: Breathing difficulty: leave area to obtain fresh air. Eye contact; flush thoroughly with water for 15 minutes. Get medical attention. Skin contact: wash thoroughly with soap and water. If swallowed: do not induce vomiting. If condition persists consult your physician immediately. Must be stored in a cool dry place. Keep out of direct sunlight.
